- To express our concern to the environment,
- To beautify the areas for scenic beauty
- To promote environmental values and Institutional Social responsibility.
- To make the students aware about the importance of planting trees and restoring depleted & degraded land.

REPORT ON:-TREE PLANTATION DRIVE - (10/06/2022)

Keeping in view the occasion of Foundation day of the University, following the concept of **“One Student One Tree campaign”** Godavari College of Nursing, Jalgaon decided to initiate the Tree Plantation Campaign, in the college premises.

It was 10th June 2022; at 10:00 am, Godavari College of Nursing, Jalgaon organized a program to plant 25 saplings and young trees to celebrate the University Foundation day.

The objective of this event is to teach students, that, future mankind depends on the way we interact with our environment and the way we handover a healthy and resourceful environment to the future generation, also to express our concern towards the environment.

This was a great initiative to make our atmosphere neat and clean. By tree plantation, we can develop a climax ecosystem free of greenhouse gases to reduce global warming, and also we can beautify the areas for scenic beauty.

Students and faculty members were asked to reach towards the site at 10’0 clock. The program started with chanting of slogan “vriksh lagao, Desh bachao...” “Don’t be mean- keep it green..etc.” by the students which created a resonating sound in the air.

The event started by planting the first sapling in the corner of the College garden with a group of students. Then after, 25 students individually planted 25 trees.

Plants were purchased from the Patil Nursery of Agriculture Institute. About 25 plants were planted by 25 students at our campus and then subsequently watered. Teachers also participated in the tree plantation program.

The main purpose of this event was to enhance awareness about the importance of tree plantations and to promote environmental values and Institutional Social responsibility.
